Introduction

Support from the start

We pride ourselves on the supportive and approachable relationships we have with our centres. This extends to our prices, which we hope are easy to understand, transparent and fair. Our main concern is to offer you qualifications and services of the highest quality, as you would expect from the leading specialist awarding organisation in the UK. But we also believe in being competitive in our pricing and we hope you agree that our fees represent substantial value. We try to give you as much advance warning as possible when fee changes are due, to help you with the task of balancing your accounts.

If you are thinking of becoming a recognised CPCAB centre approved to deliver our qualifications, our Customer Engagement team are on hand to guide you through the process. If you have any questions about applying to run CPCAB qualifications, please [email our Customer Engagement team](#) or phone on 01458 850350 ext. 211.

Once you apply you will meet with a Counselling Qualifications Professional from our Centre and Qualifications Support team. They will be your personal contact throughout your relationship with CPCAB, from the early stages of application right through to the successful certification of your learners.

Our fees outlined in this document are effective from 1st September 2026 and are accurate at the time of publication. All payments should be paid by BACS - for our payment details please [email our Finance team](#) or phone on 01458 852054.

If you have any questions about our services and products, [please get in touch](#).

About us

From our beginnings in 1993, we have grown to become the UK's leading counselling awarding organisation, offering vocational qualifications at over 200 training centres and 400 locations throughout the UK and overseas with over 16,000 candidates registering with

us each year. With over 30 years of experience as landscape specialists we work as custodians of good quality counselling education and champion the value of live taught collaborative learning throughout the sector. CPCAB continue to campaign behind the scenes for improved government recognition, funding, and support for counselling training. Our mission is to provide excellent quality inclusive pathways for a broad range of learners regardless of background or economic status. We believe that everyone should have access to good quality training, and we are committed to supporting centres to deliver it.

We are the **only awarding organisation run by counsellors for counsellors**, which makes us uniquely placed to provide specialist support to you and your learners. Our team of Counselling Qualifications Professionals are immersed in the counselling and psychotherapy sector. They are practicing therapists who have taught counselling qualifications and have a unique understanding of the sector. This means that they are able to offer meaningful guidance and support your centre and learners to flourish.

Our qualifications are based on a research-informed practitioner model on what makes counselling effective. This model is represented as a coherent 7 process qualification structure which is consistent across the progression route. The design and delivery of our qualifications is informed by stakeholder engagement from employers and professional associations. This ensures that learners are well prepared for the workplace and hold qualifications that are valued by employers and the public.

CPCAB is regulated by Ofqual in England, CCEA in Northern Ireland and Qualifications Wales in Wales. Being regulated ensures that learners carry certificates which are recognised both nationally and internationally as they are mapped to known UK education standards. Our qualifications are mapped to the requirements of reputable professional associations, and provide a range of occupational competencies including a counselling progression route which meets SCoPEd requirements.

Regulated qualification fees

Our regulated qualification fees consist of mandatory and other fees.

Mandatory fees relate to the one-off qualification application for approval to deliver our qualifications, and to the fee payable for each candidate you register.

Other fees are associated with the candidates you register with us and services we offer that apply in some circumstances.

Qualification application fees

We charge a one-off qualification application fee for each qualification you apply to offer. If you are a new centre and your application is successful, you will become a recognised CPCAB training centre. **There is no separate centre recognition fee or annual fee thereafter.**

Both new centres and those already running our qualifications pay the one-off qualification application fee at the time of applying. If your application is not successful, we regret we cannot refund this fee.

What the qualification application fee covers

One of our Counselling Qualifications Professionals will review your application documents and support you through to qualification approval. Once approved, we'll advertise your centre and the qualifications that you've received approval to offer on our [Centre Finder](#) to help candidates contact you and apply for your courses.
